Listen Close

Changes happen overnight
If you just believe it
So concerned with doing right
Don't forget who you are
Don't accept that what is now
Will always be
Just because you wear these chains
Doesn't mean you won't be free
To walk along in the sun again
Free of all the things that used to hold you down

Listen close to the whispers
They will help you to remember
Who you are and who you came here to be
Listen close you will hear me
In your heart I'm with you always
In the silence I'm the only voice you'll hear

Distant ripples on the shore
A reminder where you've been
The reflections of your past
Don't have anything to do with who you are
Where you're going now release your doubts
And choose a different path
One that opens up the doorway to love
Let yourself believe again
Don't let heaviness' illusion weigh you down

Listen close to the whispers
They will help you to remember
Who you are and who you came here to be
Listen close you will hear me
In your heart I'm with you always
In the silence I'm the only voice you'll hear

That you'll hear
All the things you've waited for
Are right here
Right before your eyes
Listen close

Listen close to the whispers
They will help you to remember
Who you are and who you came here to be
Listen close you will hear me
In your heart I'm with you always
In the silence I'm the only voice you'll hear

I'm with you always
I'm with you always
